CANADIAN ENERGY POWERING GLOBAL OPPORTUNITY

Connecting the Global Energy Sector at Canada's National Energy Show

Since its inception in 1968, the Global Energy Show has proudly been hosted in Alberta, at the heart of Canada's energy capital. Today, it stands as the largest and most influential gathering for Canada's energy sector.

Attracting over 30,000 attendees from more than 100 countries, featuring five exhibition halls and hundreds of exhibitors, the Global Energy Show is unparalleled in scale and contributes millions in economic impact each year.

In 2025, the show arrives at a critical time for Canada's energy sector, providing a powerful platform to showcase Canadian leadership in producing clean, ethical, and secure energy. As geopolitical and economic pressures reshape global energy markets, Canada, a resource-rich nation, must chart a strategic course for its energy future.

This dynamic gathering blends policy discussions, innovation, and global networking to offer an impactful and unmissable showcase of Canada's energy sector, just ahead of the G7 Summit in Kananaskis.

Canada Ranked:

4th largest oil producer

5th largest natural gas producer

4th largest hydroelectricity producer

6th largest generator of nuclear power

Top 10
hydrogen producer

“

Things are continually looking up for Alberta's natural resource and energy sector and there is optimism to spare. That's obvious when I see everyone here at the Global Energy Show. We continue to see visitors from all over the world come to Alberta from executives to engineers, buyers and investors. They are here to gather the information and plan for the safe, sustainable, long-term production and transportation of energy.

Demand for Alberta's energy will continue for decades to come. Our industry will continue to find innovative ways to reduce emissions, while providing the energy the world relies on.

EXECUTIVE CONFERENCE

Tuesday, June 10 - Thursday, June 12

THE CONVERSATION CANADA'S ENERGY MANDATE TO 2030

WITH PETER MANSBRIDGE

The Global Energy Show Canada is thrilled to welcome Peter Mansbridge, Former Chief Correspondent for CBC News and Anchor of The National, as the host of the 2025 Executive Conference.

Amid political and economic pressures including Canada-US trade relations, opportunities to grow and diversify Canadian energy export capacity, and new federal leadership, Canada cannot afford to remain a resource-rich nation without a strategic plan.

The Conversation with Peter Mansbridge will cut through the noise and deliver a critical dialogue on 'Canada's Energy Mandate to 2030'. Over two days, Peter will moderate high-impact discussions and interviews and deliver a critical national dialogue on the issues that will define Canada's energy future.

Join industry leaders, government representatives and stakeholders from global markets at this pivotal time in Canada's energy story. The time for a national dialogue on Canada's global energy ambition is now.

EXECUTIVE CONFERENCE THEMES:

1 **Securing Canada's Energy Future: Domestic Strength & Global Leadership**

As global energy markets shift and the threat of tariffs looms, Canada cannot afford to remain a resource-rich nation without a strategic plan. Unlocking our full potential requires bold action—developing new export markets, refining crude oil into high-value petroleum products, unleashing the development of critical minerals and building inter-provincial infrastructure such as west-east pipelines. To secure Canada's energy future at home and on the global stage, industry leaders, policymakers, and regulators must collaborate like never before. The question is: will Canada lead, or be left behind?

2 **Infrastructure: Breaking Barriers to Unlock Billions**

Canada faces an infrastructure gap that threatens both domestic energy security and access to high-demand global markets. Despite the success of LNG Canada, too many energy projects stall before reaching Final Investment Decision (FID). The challenge isn't potential—it's unlocking investment and eliminating bottlenecks. How can industry, investors, and policymakers fast-track the next generation of LNG facilities, refineries, and critical infrastructure to capitalize on Canada's energy advantage?

3 **Canada's Global Energy Ambition: Competing in a High-Demand World**

Energy security concerns are reshaping the global market, creating unprecedented opportunities for Canada. High-demand regions—including the Indo-Pacific, Asia, and Europe—are seeking stable, sustainable energy solutions, and Canada has the resources to deliver. The question isn't whether Canada can compete globally—it's whether we are ready to seize the moment.

4 **Overcoming Economic & Regulatory Roadblocks**

The private sector is driving energy innovation, but excessive regulatory hurdles, red tape and economic constraints threaten to stall progress. Governments want to diversify the energy mix, but without an investment-friendly environment, achieving sustainability goals will remain out of reach. What must change to unlock capital, de-risk projects, and ensure Canada remains a global leader in energy development?

5 **Indigenous Leadership: Moving from Participation to Ownership**

Indigenous communities are playing a growing role in Canada's energy sector, but barriers remain—carbon taxes, affordability, underrepresentation, and regulatory obstacles continue to limit true economic participation. The future isn't just about consultation; it's about co-ownership. How can the private sector and Indigenous communities create a new era of energy partnerships that drive prosperity and self-determination?

6 **The Energy Workforce Crisis: Who Will Power Canada's Future?**

The energy industry faces a talent emergency—fewer young people are entering the field, the workforce is aging, and international student numbers are declining. Meanwhile, demand for skilled workers is skyrocketing. Without urgent action, Canada risks a major talent shortage. How can industry, academia, and Indigenous communities collaborate to build the next generation of energy leaders?

7 **Winning Public Trust: Changing the Energy Narrative**

Energy powers every aspect of our lives, yet the industry struggles with public perception—mired in political debates, complex regulations, and misinformation. The result? A public disconnected from the realities of energy production and its critical role in economic prosperity. How can the sector engage, educate, and shift the narrative to build public trust and support for Canada's energy future?

8 **AI & Digital Disruption: The Next Energy Frontier**

AI is revolutionizing the energy industry, driving efficiencies and optimizing operations—but it's also creating new challenges, including skyrocketing electricity demand. How can companies leverage AI to accelerate the energy transition while ensuring sustainability, grid stability, and emissions reduction in alignment with global climate goals?

CONFERENCE PROGRAM

DAY 1: Tuesday, June 10

08:30 – 10:00 **Delegate Breakfast**

10:00 **Opening Plenary**

10:00 **Welcome Remarks**

10:15 **Executive Interview: Accelerating Canada's LNG Opportunity**

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host

10:45 **Panel Discussion: US-Canada Relations: North America's Energy Future**

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host
- **Jon McKenzie**, President and CEO, Cenovus
- **Lisa Baiton**, CEO, CAPP

11:30 **Close of Opening Plenary | Lunch & Exhibition Visit**

12:30 **Executive Interview: Canada's Energy Story: At a Crossroads or the Inflection Point?**

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host

13:00 **Panel Discussion: G7 Summit 2025: Domestic Strength and Global Leadership**

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host
- **Nancy Southern**, Chair & CEO, ATCO Ltd. and Canadian Utilities Limited
- **Darlene Gates**, President & CEO, MEG Energy
- **Kim Lauritsen**, Senior Vice President, Enterprise Strategy & Growth, Ontario Power Generation

13:45 **Fireside Chat**

- **Anthony Marino**, Chair of the Supervisory Board, NJSC Naftogaz of Ukraine

14:00 **Ministerial Address**

- **Honourable Brian Jean**, Minister of Energy and Minerals, Government of Alberta

14:10 **Coffee Break**

14:30 **Panel Discussion: Capital Investment to Supercharge Canada's Energy Future**

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host
- **Mark Fitzgerald**, President and CEO, PETRONAS Canada
- **Ehren Cory**, CEO, Canadian Infrastructure Bank

15:15 **Ministerial Address**

- **Matt Jones**, Minister of Jobs, Economy and Trade, Government of Alberta

15:25 **Panel Discussion: US LNG Export Boom: Increasing for Long-term Supply**

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host
- **Jason Lanclos**, Director, State Energy Development and Planning, Louisiana Economic Development (LED)
- **Kenneth Wagner**, Former Secretary of Energy and Environment, State of Oklahoma
- **James Rajotte**, Alberta's Senior Representative to the United States, Government of Alberta

16:10 **Executive Interview: How Can Canada Create Its Own National Identity in the Energy Sector?**

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host

16:40 **Hosts Closing Remarks**

CONFERENCE PROGRAM

DAY 2: Wednesday, June 11

08:30 – 10:00

Delegate Breakfast

10:00

Premier's Interview: Alberta's Energy Story

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host
- **Honourable Danielle Smith**, Premier of Alberta, Government of Alberta

10:30

Panel Discussion: The Next Chapter in Canada's Global Export Opportunity

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host
- **Heather Exner-Pirot**, Senior Fellow and Director of Energy, Natural Resources and Environment, Macdonald-Laurier Institute
- **Dr. Faye Gerard**, Energy Transition and Americas Director, International Association of Oil & Gas Producers (IOGP)

11:15

Ministerial Address

- **Hon. Colleen Young**, Minister of Energy and Resources, Saskatchewan

Pre-Panel Remarks

- **Scott Parent**, VP & Field CTO, Energy Industrials, Aerospace & Semiconductor, Ansys

11:25

Pre-Panel Remarks

- **Scott Parent**, VP & Field CTO, Energy Industrials, Aerospace & Semiconductor, Ansys

11:30

Panel Discussion: AI: the Advent of the Fourth Industrial Revolution

- **Scot Johnson**, CEO, Digital Shovel

12:15

Ministerial Remarks

- **Honourable John Streicker**, Minister of Energy, Mines and Resources, Government of Yukon

12:25

Lunch & Exhibition Visit

13:30

Executive Interview

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host
- **Chief Crystal Smith**, Chief Councillor, Haisla Nation

14:00

Panel Discussion: The Global Energy Future - The Road Ahead

- **Pedro Miras**, President, WPC Energy International
- **Lisa Baiton**, CEO, CAPP

14:45

Executive Interview: Global Cooperation in an Era of Geopolitical Uncertainty

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host

15:15

Coffee Break

15:30

Ministerial Pre-Panel Remarks

- **Nathan Neudorf**, Minister of Affordability and Utilities, Government of Alberta

15:40

Panel Discussion: Building an Inclusive Energy Economy through Indigenous Participation

Moderator:

- **Peter Mansbridge**, former Chief Correspondent of CBC News and Conference Host
- **Nicole Bourque-Bouchier**, Co-Owner and CEO, The Bouchier Group

16:40

Hosts Closing Remarks

CONFERENCE PROGRAM

DAY 3: Thursday, June 12

08:30 – 10:00	Delegate Breakfast
10:00	Welcome Back from Host
10:00	Ministerial Address <ul style="list-style-type: none">• Honourable René Legacy, Deputy Premier, Minister of Finance and Treasury Board, Minister responsible for Energy, New Brunswick
10:10	Ministerial Remarks <ul style="list-style-type: none">• Honourable Rick Wilson, Minister of Indigenous Relations
10:20	Special Session with the First Nations LNG Alliance
11:05	Coffee Break
11:15	Panel Discussion: New Drilling Opportunities
12:00	Lunch & Global Energy Show Canada Awards
13:30	Special Address
13:40	Panel Discussion: Accelerating the Energy Transition through AI and Digitalization <ul style="list-style-type: none">• Pedro Miras, President, WPC Energy International• Lisa Baiton, CEO, CAPP
14:25	Panel Discussion: Workforce Transformation around the Globe
15:10	Host's Closing Remarks

LEADERSHIP ROUNDTABLES

This year's exclusive Leadership Roundtables will provide a platform for in-depth discussions, insights, and networking opportunities focused on the most pressing challenges in the energy sector. Key stakeholders, including policymakers and industry leaders, will gather to explore essential trends and opportunities that can drive the transition to a sustainable energy future.

- Navigating US Canada Relations: Opportunities and Challenges
- Tariffs and Trade: Implications for Canadian Energy Exports
- Unlocking Export Potential: Expanding Canada's Energy Reach
- Building Infrastructure for Canada's Energy Future
- LNG Export: Canada's Role in the Global Energy Market
- Hydrogen Policy and Regulations: Paving the Way for a Clean Energy Economy
- CCUS: Accelerating Carbon Capture and Storage in Canada
- Indigenous Engagement and Project Co-ownership in Energy Development
- Attracting International Investment to Canada's Energy Sector
- Navigating a Changing Landscape with AI
- Energy Transition and Innovation: Balancing Growth and Sustainability
- The Future of Energy Collaboration: Building Resilient Partnerships

A NEW CONFERENCE WHERE IDEAS DRIVE IMPACT

Energy Influencers 2025 takes a forward-thinking approach to the traditional conference format, bringing together the next generation's energy leaders, seasoned professionals, entrepreneurs, and post-secondary students committed to shaping the future of energy. An interactive, curated and inclusive space, Energy Influencers is where community meets technical expertise.

Over three days, Influencers will engage in expert-led discussions, ground-breaking Tech Talks, and cross-industry networking designed to inspire the brightest minds and enable collective industry advancement. With unparalleled technical rigor, the conference takes Influencers on a journey across three themed theatres exploring the next frontier in oil and gas, clean energy and AI and digitalization.

Join us this June in Calgary at Canada's largest energy event to connect with industry leaders, exchange knowledge, and take your place as a future energy leader.

Oil & Gas: Reimagining a Sustainable Future

The evolving role of oil and gas goes beyond energy, driving innovation, advancing sustainability, and cutting emissions with groundbreaking applications.

Engage with industry colleagues, challenge the status quo and launch real-world solutions that position oil and gas at the heart of Canada's sustainable energy future.

Clean Energy: Powering a Resilient Future

The clean energy revolution is here, and it's redefining what's possible. From nuclear to renewables, utilize cutting-edge technology to build resilient, low-carbon energy systems.

Be inspired by innovators and visionaries to push boundaries, challenge assumptions, and drive the clean energy transition forward.

AI & Digitalization: Accelerating a Transformative Future

AI and digitalization are reshaping the global energy industry. Connect with experts to challenge assumptions and unlock the full potential of AI.

Meet influencers rewriting the rules of energy and become empowered to convert challenges into opportunities to create a smarter future.

WHY EXHIBIT AT GLOBAL ENERGY SHOW CANADA?

The Global Energy Show is the ideal platform for companies from across the entire energy landscape to showcase their expertise and services to investors and buyers looking to do business in the North American market.

With **30,000+ industry professionals** expected to attend over three days of industry innovation, knowledge exchange and networking, the exhibition provides companies the unique opportunity to maximize brand exposure to the right audience.

Showcase your products, services and solutions

Exhibiting at the Global Energy Show allows exhibitors the opportunity to sell their products, services and solutions to industry buyers and decision makers.

Solidify your business network

The Global Energy Show draws professionals with strong buying power and gives exhibitors the opportunity to meet with existing connections and potential leads involved in the energy mix.

Reach your target audience

With 9/10 attendees being a key influencer, decision maker or purchaser, exhibiting at Global Energy Show Canada delivers real value.

Access new markets

Connect with primary stakeholders from upcoming regions developing project plans, budget allocations, timelines and tap into opportunities to win contracts.

Enhance brand recognition

Global Energy Show Canada brings a unique opportunity to differentiate your brand from the competition and create a lasting impression on current and potential buyers.

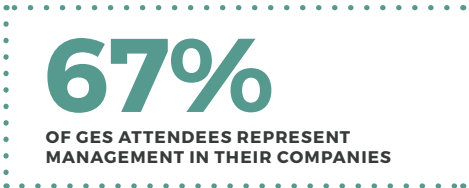

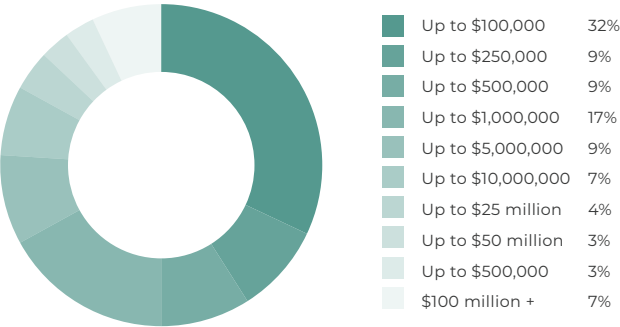

Get instant feedback

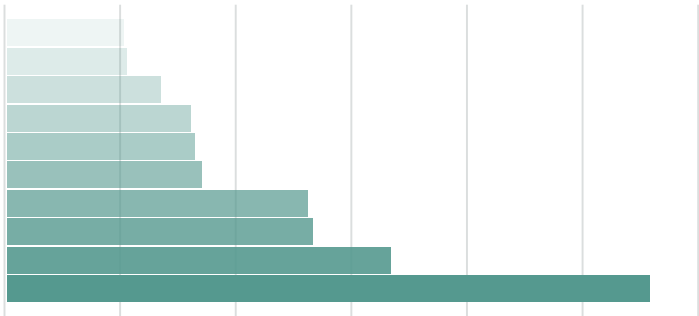

Engage with your target audience in a short timeframe, explore new ideas, gain first-hand product feedback and understand the trends shaping the future of energy.

NORTH AMERICA'S LEADING B2B EXHIBITION & CONFERENCE ATTRACTING 30,000+ VISITORS FROM ACROSS THE WORLD

PURCHASING POWER:

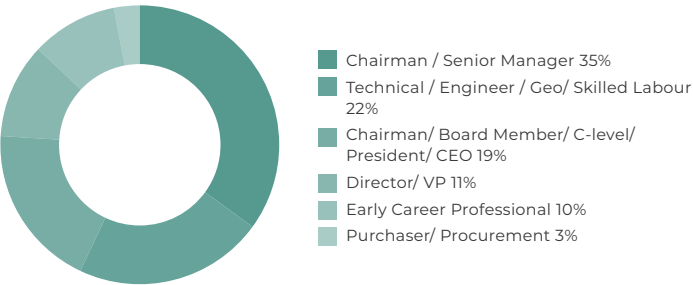

JOB FUNCTION (TOP 10):

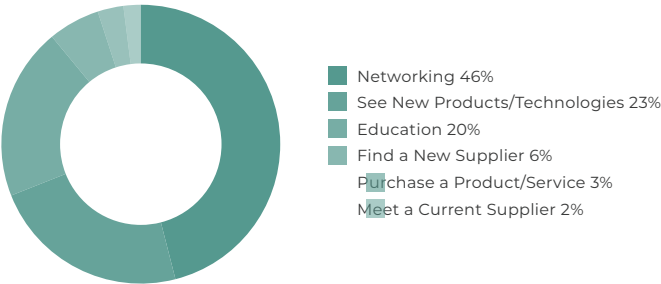

- Commercial/ Business Development Manager
- Managing director/ Head of Company
- Project Manager
- Manager (Other)
- Director (Other)
- Analyst/Business Advisor/Consultant
- Chairman/President/COO/CEO/Vice President
- Other
- Sales/Marketing Manager
- Engineer

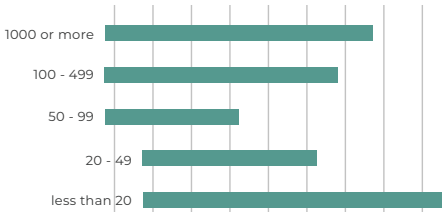

SENIORITY LEVEL:

MAIN REASON TO ATTEND:

COMPANY SIZE:

The floor plan illustrates the layout of the 2024 International Fluid Power Exposition. The main indoor area is filled with various exhibition booths and pavilions. Key features include:

- Entrance:** Indicated on the left side with three green arrows.
- Pavilions:** Includes the USA Pavilion, China Pavilion, India Pavilion, and Government of Canada Pavilion.
- Global Energy Exhibitor Zone:** Located in the top right corner.
- Influencer Centre Court:** A large circular area in the center.
- Restaurants:** Includes the Partners VIP Restaurant, Global Energy Restaurant, and several other dining areas.
- Outdoor Zone:** Located at the bottom right, featuring 10 numbered outdoor areas and registration points.

FEATURED ZONES

Digital, AI & Automation

Step into the future of digital transformation and automation in the energy sector. The Digital, AI & Automation Zone showcases the integration of AI, IoT, and advanced analytics in optimizing operations and improving decision-making. Discover how digital solutions are driving efficiency, safety, and sustainability in energy management.

Data Centres & Electrification

The Data Centres and Electrification pavilion at the Global Energy Show provides an unparalleled platform to connect directly with leaders and innovators shaping the rapidly expanding data centre industry. With escalating global demand driven by AI, cloud computing, and digital transformation, this pavilion is your gateway to strategic partnerships, advanced technological solutions, and crucial market insights.

Decarbonization

Engage with industry leaders and sustainability experts to explore cutting-edge technologies and solutions that reduce carbon emissions. This zone hosts the Emissions Reduction Theatre that will feature interactive discussions showcasing sustainable practices, carbon capture technologies and dive into industry trends that are shaping the path to decarbonization.

Canada Gas & LNG

Traditionally hosted in Vancouver, this annual event will now be co-located at Global Energy Show Canada. This zone will host thought-provoking panels, live discussions and presentations featuring Canada's leading voices in the gas industry. Gain fresh perspectives on Indigenous partnerships and explore the latest trends in energy policy.

Co-Hosted by Sponsored by

Critical Minerals

Showcasing the latest advancements, investment opportunities, and strategic initiatives, this pavilion represents a unique and timely opportunity to engage directly with Canada's critical minerals ecosystem, connecting industry leaders, investors, government officials, and innovators to build resilient, diversified supply chains and accelerate sustainable development vital to future economic security.

EXHIBITION OPPORTUNITIES

Indoor Hardwall Exhibition Package

A ready-made hardwall shell scheme stand so you can turn up with your products, services and brochures. Additional features and customization can also be done through our official contractor, Goodkey Show Services. Includes floor space, standard grey booth carpet, hardwall shell scheme, customizable counter, two (2) stools, name board, daily janitorial, one (1) 1500-watt electrical outlet, basic onsite materials handling to booth (up to 5000 lbs. per crate, except for specialty work), crate storage during the show, 24-hour roaming security, and unlimited client invitations to attend the exhibition.

Hardwall Shell Scheme starting at \$67.10/sq. ft

Indoor Exhibition Package

A standard exhibition solution with Pipe & Drape so you can turn up with your products, services, and brochures. This offering includes floor space, standard grey booth carpet, a name board, daily janitorial, one (1) 1500-watt electrical outlet, basic onsite materials handling to booth (up to 5000 lbs. per crate, except for specialty work), crate storage during the show, 24-hour roaming security, and unlimited client invitations to attend the exhibition. Additional furniture can be ordered through our official contractor, Goodkey Show Services.

Standard pipe & drape booth starting at \$58.00/sq. ft

Outdoor Space Only Package

An opportunity to activate in our Outdoor Zone includes prime ground space, basic onsite materials handling to the booth (up to 5000 lbs. per crate, except for specialty work), one (1) parking pass (good for move in/out days only), 24-hour roaming security, basic company listing on the official event website and unlimited client invitations to attend the exhibition.

Starting at \$13/sq.ft

FEATURES ON THE EXHIBITION FLOOR

Emissions Reduction Theatre

Emissions, in many forms, are a by-product of natural gas and oil exploration, production and transportation activities. Emissions come from many sources, both planned and unplanned, and include both simple and complex solutions to find, measure, monitor, report and eliminate.

The reduction of these emissions in a cost-effective, reasonable and responsible manner not only works towards a Net Zero future but also strengthens the energy industry, allowing us to provide the lowest carbon intensive product while ensuring that energy is reliable and affordable. The Global Energy Show Canada Emissions Reduction Zone, hosted by the Methane Emission Leadership Alliance (MELA), the Clean Resource Innovation Network (CRIN) and the Trade Commissioner Service of Canada (TCS), features a variety of topics that will help your organization move through the complex journey of reducing emissions on the way to a low carbon future.

HOSTED BY:

Canada Gas & LNG Pavilion

A co-located event at Global Energy Show Canada featuring dedicated programming and exhibiting companies highlighting the critical importance of LNG and Indigenous leadership in Canada's energy future.

CO-HOSTED BY:

SPONSORED BY:

Future Forward Next Gen Theatre

A theatre on the exhibition floor showcasing opportunities for young professionals interested in starting a career in energy. Topics include energy policy & management, decarbonizing the energy sector, energy efficiency, and energy storage.

SPONSORED BY:

NETWORKING & SPECIAL FEATURES

Site Tours

Global Energy Show is delighted to offer registered delegates exclusive access to some of the most high-profile projects and facilities in the Calgary region. Taking place on Monday, June 9th, the site tours are an excellent opportunity to see how things work in practice and network with industry peers prior to the conference.

After-Party

Join us on Wednesday, June 11 for the official after party, allowing guests to finish the busy exhibition and conference day and let loose in an off-site casual setting and enjoy an exciting concert experience.

ENTERTAINMENT PARTNER:

AWARDS LUNCHEON

The Global Energy Show Awards, now in its 10th year, shines a spotlight on excellence in the energy industry here in Canada and around the world. The Awards recognize and celebrate the accomplishments of leaders, innovators and trailblazers over the last 12 months who have been at the forefront of leadership, innovation, sustainable solutions and promoting the healthy advancement of the energy sector.

The 10th edition of the Global Energy Show Awards will take place on June 12, 2025, celebrating nominees and winners over a seated luncheon.
